

JOURNÉES NATIONALES DE
CHIRURGIE AMBULATOIRE
30/31 JANVIER 2019 - PALAIS D'ISSY LES MOULINEAUX

Helen BALL

I have worked in day surgery for 29 years and have been the sister within the Unit for 19 years.

My previous experience before working in the Day Procedure Unit was based in short stay surgical wards of the Norfolk and Norwich University Hospital. Prior to moving to Norwich I spent two years in an Oncology Unit in Leicester .The most enjoyable aspect of my nursing career is that health care is continually changing and evolving, leading to exciting changes and challenges required in my own role.
